

ARNAB MATHUR

UI/UX Designer

arnabmathur@gmail.com | Hyderabad, India

<https://linkedin.com/in/arnabmathur> | www.behance.net/arnabmathur | www.arnabmathur.in

SUMMARY

Product focused UI/UX Designer with close to 3 years of experience owning design end to end. Experience in requirement analysis with product managers, wireframing, high-fidelity UI, interactive prototypes, usability testing and implementation-ready developer handoff across fintech, e-commerce, ERP and marketplace products. Sole designer on 6+ products, running reviews and defending decisions with user evidence rather than opinion. Strong Figma and prototyping skills and a systems-thinking approach from a mechanical engineering background.

EXPERIENCE

Xfinity Buildcon Pvt Ltd | Executive Management Trainee | Hyderabad, India | Sept 2025 - Present

- Ran requirement analysis with leadership and operations stakeholders, mapped existing workflows and redesigned digital touchpoints as wireframes and structured layouts, removing manual handoffs between approval stages.
- Coordinated cross-functional delivery across leadership, operations and technical teams - owning milestone tracking, review cadence and reporting - the same coordination a design pod needs day to day.
- Documented digitized processes and automation flows so implementation teams could build directly from the handoff without rework.

Starkin Solutions | UI/UX Designer | Hyderabad, India | Feb 2025 - Aug 2025

- Sole UX designer across 6+ products, owning the full cycle: requirement analysis with clients, wireframes, high-fidelity UI, interactive Figma prototypes, usability testing and annotated developer handoff.
- Iterated on client and stakeholder review feedback before sign-off, cutting design-to-dev rework by ~40% through implementation-ready specs and close engineering collaboration.
- Designed a B2C agricultural e-commerce platform covering vendor onboarding, inventory logic and real-time stock states, reducing onboarding steps by ~35%; also shipped loan management and financial insights dashboards, a puja service marketplace and role-based admin dashboards.
- Built reusable component libraries and design system standards that kept UI consistent across products and raised first-pass design approval.

Surreal Technologies (Newton ERP) | UX Associate | Hyderabad, India | Aug 2023 - Nov 2023

- Redesigned workflows across 5+ K-12 cloud ERP modules spanning admissions, student management, finance and inventory, reducing average task completion time by ~30%.
- Partnered with product managers and developers on requirement analysis, simplified information architecture across admin and teacher-facing views and delivered complete design documentation for handoff.

Ati Motors | Engineer Intern (UX) | Bengaluru, India | Dec 2022 - Jun 2023

- Designed HMI experiences for Autonomous Mobile Robots in warehouse operations - wireframes, interactive prototypes and high-fidelity mockups validated with operators - reducing operator task completion time by ~25%.

EDUCATION

IIT Roorkee Executive Post Graduate Certification in UI/UX Design | Jan 2024 - Aug 2025

PES University B.Tech, Mechanical Engineering | Aug 2019 - May 2023

SKILLS

Design: Requirement Analysis, User Research, UX Design, UI Design, Interaction Design, Wireframing, Prototyping, Usability Testing, User Flows, Information Architecture, Design Systems, Design Documentation & Developer Handoff, Design Reviews, Accessibility (WCAG 2.1)

Tools: Figma, FigJam, Framer, Figma Make, Lovable, Jitter, Claude Code, Codex

Technical: HTML, CSS (basic knowledge)

Domains: Fintech, E-commerce, ERP, Marketplace, SaaS, Robotics HMI

CERTIFICATION

Google UX Design Professional Certificate: Issued by Google (2026)
